Launchpad Applications for State of South Dakota

[Applications](#) **Production Internet Applications**
DH94Stars

[Change Password](#) **Test Internet Applications**
DH94Stars

[Administration](#)

[About](#)

1. Two applications are available, select Production Internet Application which is in Blue for entering live information with actual clients. The Test application can be used for training purposes and the data entered can be made up which will not be entered into your agency's live data.

2. Change Password can be used to select a different password or when the system requires you to create a new password. Due to HIPPA requirements, passwords are to be renewed every 6 months and STARS will prompt you when this time period is due.
